

STAYING “ CONNECTED

WITH FAMILY ONBOARD A CRUISE

If you're cruising with your family or a group of friends, you may split up to enjoy different onboard amenities and need a way to stay in contact.

With the ship's Wi-Fi and these smartphone apps, connecting with your travel mates is a breeze.

TIPS for ONBOARD COMMUNICATION

ROYAL CARIBBEAN INTERNATIONAL APP

This app does it all! Complete check-in, read up on your ship, make reservations for dining and onshore excursions, link plans with other guests, and keep in touch with the in-app chat feature. It's also free to use onboard!

TRIPIT

Organize all the aspects of your vacation — flights, hotels, cruises, excursions and restaurants — with your travel companions so everyone knows where to be and when.

WHATSAPP

No cell data? No problem! This free app allows you to text and call with just Wi-Fi.

SOCIAL APPS

Say "hello" over video or share your cruise memories while on the high seas with the social app of your choice, which could be anything from Instagram to Facebook or TikTok.
